HYPOTHETICAL SIMULATED PERFORMANCE RESULTS HAVE LIMITATIONS. The market conditions during the past period will not be present in the future. The future market conditions will differ significantly from those in the past. This may have a materially adverse impact on future returns. Simulated results do not represent actual trading or the costs of managing the portfolio. Because the trades have not been executed, the results may have under or over compensated for the impact of market factors, such as lack of liquidity. Simulated are designed with the benefit of hindsight. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS. The selected timeframe constitutes the most complete historical dataset for the selected digital assets.

Source: Bloomberg, CoinMarketCap.com. Annualized figures are based on 252 trading days. "Global 60/40" consists of a 60% allocation to the iShares MSCI ACWI and a 40% allocation to the Vanguard Total International Bond ETF. "Digital Assets" consists of an equal-weighted mix of Bitcoin, Bitcoin Cash, Ethereum, Ethereum Classic, Litecoin, Stellar Lumens, XRP, Zcash, and Zen. THE GLOBAL 60/40 + 1%/3%/5% DIGITAL ASSETS RESULTS ARE HYPOTHETICAL AND ARE NOT BASED ON ACTUAL RETURNS OR HISTORICAL PERFORMANCE. DIGITAL ASSETS HAVE HISTORICALLY EXPERIENCED SIGNIFICANT INTRADAY AND LONG-TERM PRICE VOLATILITY AND PAST PERFORMANCE IS NOT INDICATIVE OF FUTURE RESULTS. Component asset weights are held constant over the period. The Sharpe Ratio is the annualized excess return of the portfolio over the 3-month US T-Bill divided by the standard deviation of excess returns. Ratio improvement is calculated by dividing the Sharpe Ratio of each of the Global 60/40 + 1%/3%/5% Digital Assets Portfolios and dividing by the Sharpe Ratio of the Global 60/40 Portfolio.

RISK FACTORS

PRICE VOLATILITY

Digital assets have experienced significant intraday and long-term price swings. In addition, operates a quarterly redemption program and may halt subscriptions from time to time. There can be no assurance that the value of the common units of fractional undivided beneficial interest (“Shares”) of Ven Digital Asset Fund (the “Fund”) will approximate the value of the digital assets held by the Fund and such Shares may trade at a substantial premium over or discount to the value of the digital assets held by the Fund. At this time, the Fund is operating a quarterly redemption program and therefore Shares are not always redeemable by the Fund. Subject to receipt of approval by the Sponsor or Manager, as applicable, in its sole discretion, the Fund may in the future cease to operate or vary its redemption program.

MARKET ADOPTION

It is possible that digital assets generally or any digital asset in particular will never be broadly adopted by either the retail or commercial marketplace, in which case, one or more digital assets may lose most, if not all, of its value.

GOVERNMENT REGULATION

The regulatory framework of digital assets remains unclear and application of existing regulations and/or future restrictions by federal and state authorities may have a significant impact on the value of digital assets. There are substantial risks in investing in the Fund. For a complete list of all risk factors, please refer to the Private Placement Memorandum (the “Memorandum”) for the Fund as well as the disclaimer at the end of this presentation.

SECURITY

While the Fund has implemented security measures for the safe storage of its digital assets, there have been significant incidents of digital asset theft and digital assets remains a potential target for hackers. Digital assets that are lost or stolen cannot be replaced, as transactions are irrevocable.

LACK OF REGISTRATION

The fund is a private, unregistered investment vehicle that is not subject to the same regulatory requirements as exchange traded funds or mutual funds, including the requirement to provide certain periodic and standardized pricing and valuation information to investors. There are substantial risks in investing in the Fund. The Fund is not registered with the U.S. Securities and Exchange Commission (the “SEC”), any U.S. state securities laws, or the U.S. Investment Company Act of 1940, as amended, and the Shares of the Fund are being offered in reliance on Regulation S or under a private placement pursuant to Rule 506(c) under Regulation D of the Securities Act of 1933, as amended (the “Securities Act”). As a result, the Shares of the Fund may be restricted Shares subject to restricted holding periods in accordance with Rule 144 or Regulations S under the Securities Act. In addition, the Fund currently operates a redemption program. Because of the one-year holding period and the quarterly redemption program, Shares should not be purchased by any investor who is not willing and able to bear the risk of investment and lack of liquidity for at least one year. No assurances are given that after the one year holding period, there will be any market for the resale of Shares of the Fund, or, if there is such a market, as to the price at such Shares may be sold into such a market. Any interests in the Fund have not been recommended by any U.S. federal or state, or non-U.S., securities commission or regulatory authority, including the SEC. Any representation to the contrary is a criminal offense. Investors must be qualified buyers or have the financial ability, sophistication/experience and willingness to bear the risks of an investment. Any offering or solicitation will be made only to qualified accredited investors as defined under Rule 501(a) of Regulation D pursuant to a formal offering with additional documentation, all of which should be read in their entirety and contain material information not contained herein. Any offer or solicitation of an investment in the Fund may be made only by delivery of its confidential offering documents to qualified accredited investors. You should rely solely on such offering documents in making any investment decision. An investment in the Fund is not suitable for all investors. This document is intended for those with an in-depth understanding of the high risk nature of investments in digital assets and these investments may not be suitable for you. This document may not be distributed in either excerpts or in its entirety beyond its intended audience and the Fund and Ven Finance Limited (“Ven Finance”) will not be held responsible if this document is used or is distributed beyond its initial recipient or if it is used for any unintended purpose. This document not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or other jurisdiction in which such offer, solicitation or sale would be unlawful, and there is not enough information contained in this message on which to make an investment decision and any information contained herein should not be used as a basis for this purpose. The Fund and Ven Finance do not: produce in-house research; make recommendations to purchase or sell specific securities; provide investment advisory services; or conduct a general retail business. None of the Fund, Ven Finance, their affiliates, or any of their directors, officers, employees or agents shall have any liability, howsoever arising, for any error
